

The **European University Institute** in Florence is one of the world's leading academic institutions for postgraduate studies in economics and the social sciences. It was set up in 1976 and now hosts an academic community of about 800 Ph.D. researchers, postdoctoral fellows and professors from over fifty countries in Europe and beyond.

The **Economics Department** is committed to research on a wide range of topics and runs one of Europe's leading PhD programmes. It provides teaching and supervision for doctoral students at the highest international level. The teaching in the doctoral programme is based on formal coursework in the areas of **microeconomics, macroeconomics and econometrics** at a level which allows researchers to pursue successful academic careers in leading

universities and professional opportunities in international organisations. Recent alumni have been placed successfully in leading international universities such as the University of Oxford, Universitat Pompeu Fabra, Paris School of Economics, Stockholm University, Cornell, U.C. Davis, Universität Bonn, and institutions such as the European Central Bank, European Commission, IMF and World Bank. The department, together with visiting professors from top universities, offers a wide range of advanced and specialised graduate courses to first and second year students. Furthermore, weekly research seminars in macroeconomics, microeconomics, econometrics and economic policy are given by visiting speakers.

Why choose the EUI PhD programme?

The Economics Department of the European University Institute brings together scholars from all over Europe in an outstanding research environment. The researchers benefit among other things from the following:

- **Structured Ph.D. programme with intensive course work and close research supervision**
- **Four-year grants to most admitted**
- **Weekly research seminars in Micro, Macro and Econometrics**
- **Frequent interaction with international faculty**
- **English as the working language**

How and when to apply:

Apply online **by 31 January** of each year at:

- **Andrea Mattozzi** (Political Economy)
- **Evi Pappa** (Open Economy Macro, Monetary and Fiscal Policy)
- **Fernando Vega-Redondo** (Game Theory), *until August 2013*

"The EUI offers one of the best Economics Ph.D. in Europe which is highly recognized by academia and policy institutions around the world, as the placement of its students suggests. The structure of courses, the very close interaction with its top professors and visiting scholars and the logistic facilities it offers make the EUI's Economics Department a very stimulating environment to develop state of the art research."

Bertrand Gruss (2010 alumnus) - Economist at the International Monetary Fund.

"With some difficulty I had turned down an offer from a good department on the US east coast, in favour of the EUI. I have never regretted this decision. The first year sequence was as rigorous as in any other top-PhD programme, and together with the field courses left me well-prepared for research."

Tobias Broer (2009 alumnus) - Assistant Professor at the Institute of International Economic Studies, University of Stockholm.

"The EUI PhD program in economics offers everything one needs for a very successful career in academics: excellent courses taught by first class professors, numerous seminars by top scholars and, most importantly, a unique working environment with great interaction among students. I highly recommend the program, which is perhaps the best in Europe and in my view highly competitive with most US programs."

Karel Mertens (2007 alumnus) - Assistant Professor at Cornell University.

"EUI students are sought after intensely by policy institutions, such as the ECB, because of the very good training as well as the European and international outlook of the EUI."

Marcel Fratzscher (2002 alumnus) - Senior Adviser at the European Central Bank.
