NEWSLETTER

Vol.1. No.2.

Through the I-SICS project our long term goal is to find answers to the most important social challenges of our world, by making the future's entrepreneurs and leaders aware of these, and by enabling them today to make a change for a more equal future.

We intend to achieve the goals of the projects through an International Social Innovation Competition.

Our partners organize regional competitions in their respective countries and the winners of these contests meet in Hungary in August 2016 to participate in an international entrepreneurship competition.
