STUDY YOUR DREAM.

FH JOANNEUM, Campus Bad Gleichenberg
International Programme

Spring Semester 2019/2020

Health Management in Tourism, Bachelor (GMT)

Health-, Tourism- and Sport Management, Master (GTS)

Dietetics and Nutrition (DIO)

Occupational Therapy (ERG)
BG town - Small is Beautiful.
Studying in the picturesque landscape of Eastern Styria

What makes studying in Bad Gleichenberg so special? Bad Gleichenberg has a long tradition as a spa resort and training centre for the tourism and hotel industry which makes it an ideal location for the FH JOANNEUM’s degree programmes in tourism and health sciences. The special strengths of the region lie in tourism, wellness, health and eco-technology.

Nature is the key to the region’s attractiveness. During spring and early summer, you will be surrounded by an amazingly green and lovely landscape and in autumn the grape harvest and fall colours attract many to the area. Even in winter the area has its own special charm. Forests, hills and mountains are just around the corner whenever one feels like a little hiking trip or just relaxing in a health-promoting natural environment. The leisure opportunities in Bad Gleichenberg range from nature experiences in the picturesque rolling landscape of eastern Styria to a wide variety of sporting activities. For relaxing, a wide range of possibilities is also available.

The FH campus is nestled in these green surroundings, directly across from one of the largest spa parks in Europe, and its modern infrastructure offers students an ideal environment for practical and career-focused training. The classrooms are bright and equipped with the latest technological standards.

Students at Bad Gleichenberg enjoy easy access to faculty and a close relationship with their fellow students. Because the campus is so small, everyone seems to know everyone. It is very hard to get lost here, either physically or otherwise. “Bad Gleichenberg is an unusual, but diverse and unique place to study. Once you have experienced the great student atmosphere here, you won’t want to miss it”, says Marlene Moser, graduate of Health Management in Tourism.

www.bad-gleichenberg.gv.at
Your Study Choices

At FH JOANNEUM in Bad Gleichenberg there are three different Institutes (Health and Tourism Management, Dietetics and Nutrition and Occupational Therapy) which offer four different degree programmes in the area of health sciences:

**Health Management in Tourism (BA) – GMT**  
Health-, Tourism- and Sport Management (MA) – GTS  
Occupational Therapy (BA) – ERG  
Dietetics and Nutrition (BA) -- DIO

Bad Gleichenberg’s three Institutes have joined forces to offer you a programme in English.

We offer around 96 ECTS in English for all incoming students. You can choose any of the listed courses. Students with a good command of German can also choose other courses offered by the four programmes.

If you have any special interests or if your home curriculum requires that you take a particular class not listed here, please contact the international coordinators:

- Jim Miller (GMT, GTS) [James.Miller@fh-joanneum.at](mailto:James.Miller@fh-joanneum.at)
- Elisabeth Fattinger (DIO) [Elisabeth.Fattinger@fh-joanneum.at](mailto:Elisabeth.Fattinger@fh-joanneum.at)
- Katrin Pechstädt (ERG) [katrin.pechstaedt@fh-joanneum.at](mailto:katrin.pechstaedt@fh-joanneum.at)

They will see if there are options available.
If you are interested:

First step:

Your university must nominate you as an Erasmus student at our institution (international@fh-joanneum.at).

At the same time, please contact Jim Miller (Health Management/Tourism), Elisabeth Fattinger (Dietetics) or Katrin Pechstädt (Occupational Therapy) for all academic matters. They will advise you in putting together your Learning Agreement.

Nomination deadline is the 1st of November, 2019. The number of participants for this programme is limited.

Second step:

After receiving your nomination, we will start the online application process. You will receive an application link together with further instructions on how to complete your application.

Third Step:

Once you have been nominated by your home university and accepted by FH JOANNEUM, please contact Stefan Strohmaier (stefan.strohmaier@fh-joanneum.at) for all organizational issues, such as housing, travel, insurance, etc.

Start of the Winter Semester:

Health Management in Tourism & Dietetics & Nutrition: 24th of February, 2020

Occupational Therapy: 10th of February, 2020

Degree Programmes @ Campus Bad Gleichenberg

Health Management in Tourism (Bachelor)

The Institute of Health and Tourism Management offers the only university-level degree programme in Austria which connects basic knowledge of health sciences with a strong grounding in the tourism and leisure business. The curriculum of the bachelor’s degree programme in Health Management in Tourism prepares students to assist in organizing and implementing health-promotion and health-counselling programmes, as well as tasks concerning leisure, tourism and health tourism. Bachelor graduates either continue on for a master’s degree or enter the job market directly. They are usually hired as assistant managers in health resorts, wellness facilities, hotels, leisure and event management operations and tourism associations, as well as in health promotion work programmes, public agencies dealing with health issues, or other health-related institutions. After passing the bachelor examination at the end of the sixth semester, students graduate with the degree of “Bachelor of Arts in Business“ (BA). A full list of all lecturers and the current curriculum can be found at https://www.fh-joanneum.at/en/institut/health-and-tourism-management/

Health-, Tourism- and Sport Management (Master)

The master’s degree programme in Health- Tourism- and Sport Management trains managers and experts in the organisation and implementation of health promotion projects and tourist activities for the leisure industry and the health tourism sector. The programme provides a solid knowledge in special areas of the health tourism industry, and students receive a thorough grounding in the fields of management and organization. Students can choose among three different concentrations within the master: Health Tourism & Leisure Management, Health Management & Public Health and Sports & Event Management. On passing the master’s degree examination after four semesters, students graduate as a “Master of Arts in Business“ (MA). Graduates of the master’s degree programme in Health-, Tourism- and Sport Management able to plan and organize health promotion and health counselling, sports and touristic services on the basis of scientific criteria, practical experience, and international developments. A full list of all lecturers and the current curriculum can be found at https://www.fh-joanneum.at/en/institut/health-and-tourism-management/
Dietetics & Nutrition (DIO)

There is an increasing interest in health matters in today’s society, especially concerning health maintenance and health promotion, due to a notable increase in the incidence of nutrition-related diseases. As a result, dieticians have a broad spectrum of career opportunities in the fields of counselling, training and health promotion. The bachelor’s degree programme in Dietetics and Nutrition trains students as experts with technical-methodical competence in independently planning and carrying out the nutritional consulting and therapy process. Furthermore, students in the programme acquire fundamental knowledge of nutrition management, catering management and nutrition marketing. Theoretical lectures based on the most recent scientific findings, as well as practical sessions under the supervision and with the guidance of teaching staff, form the basis of successful work placements. On completion of the six-semester bachelor’s degree programme, students are awarded the title, “Bachelor of Science in Health Studies“ (BSc). Dieticians can work in hospitals, offer nutritional instruction or serve in tourism facilities offering training programmes with nutritional consulting services. A full list of all lecturers and the current curriculum can be found at https://www.fh-joanneum.at/diaetologie/bachelor/en/

Occupational Therapy (ERG)

Occupational therapists treat clients with reduced mobility or other problems limiting their participation in social life, resulting from an accident, illness, developmental delay or in cases where reduced mobility may develop. The bachelor’s degree programme in occupational therapy offers evidence-based theoretical and practical training as well as instruction in mechanical-creative skills and everyday activities. The internships in the second, fourth, fifth and sixth semesters give students the opportunity to put theoretical knowledge into practice under the supervision and guidance of experts. The two bachelor papers in the fifth and sixth semesters sharpen students’ skills in the scientific analysis of specific cases. On completion of the six-semester course graduates are awarded the title “Bachelor of Science in Health Studies“ (BSc). Occupational therapists work not only in acute treatment and rehabilitation but also in health promotion and preventative health care. A full list of all lecturers and the current curriculum can be found at https://www.fh-joanneum.at/ergotherapie/bachelor/en/
Apart from teaching, research and project work play an important role at FH JOANNEUM University of Applied Sciences. The three institutes located on the Bad Gleichenberg campus have developed several Research Competence Areas that actively engage in research and project work. These include:

**Sport Science Laboratory**

The Sport Science Laboratory (Sportwissenschaftliches Labor—or SpoWiLab for short) in Bad Gleichenberg develops diagnostic packages and training plans for its clients and partners tailored to their specific needs and requirements. The spectrum of services ranges from endurance, strength, speed and coordination diagnostics to biomechanical analyses. The SpoWiLab usually has several of volunteer students helping at all times, so if you are interested, just ask a SpoWiLab staff member about it and they will help you set up a volunteer experience in the lab. Typical tasks are collection and processing of data, assisting in field tests and literature research.

**Research Unit in Health Tourism and Management**

This unit focuses on the business of health tourism, particularly at the nexus of increasing leisure time on the one hand and health, relaxation and well-being on the other. In addition to consumer research this involves macro- and microeconomic analysis of relevant markets. Consulting services are supplied to commercial partners such as hotels, spas, wellness facilities and health tourism destinations.
Research Unit in Public Health and Health Management

This unit carries out projects in a variety of settings in order to meet current health challenges facing society, and offer clients scientifically based problem-solving competence. The range of services includes:

- planning, execution and evaluation of projects in health promotion, prevention and cure and rehabilitation
- workplace health promotion for firms, as well as network solutions for regions and business branches
- health impact assessment
- health reporting
- participatory health research with different target groups (youth, employees, seniors, etc.)
- development of health mission statements for municipalities, provinces and organisations
- development and implementation of health promotion strategies, concepts and measures
- health conference planning and organization

Research Unit of Occupational Therapy

As "doing" is one of the main objects in occupational therapy's theory, as well as in occupational science, the main aim of the research unit is to put theory into praxis. Occupational therapy research focuses on evidence for different approaches used in occupational therapy. Occupational science focuses on the interdisciplinary exploration of occupations and related factors. Therefore, interdisciplinary projects are planned and performed to gather evidence and knowledge regarding these topics.

Health Perception Lab

The Health Perception Lab is unique in Austria in its focus on applied sensory perception research aimed at sustainable health promotion, prevention and therapy. Though led by the Institute of Dietetics, the laboratory is an interdisciplinary project involving input from a total of seven other institutes of FH JOANNEUM. Through this symbiosis a whole range of interesting research questions can be addressed in cooperation with industry partners.

* Online course
** This course involves an excursion, which will result in costs to the student.
*** Be aware the semester starts at the 16th of September 2019 for occupational therapy students!
**** These courses are for incomings only and cannot be found in the online schedule. For that reason, they have no abbreviation. See Jim Miller for scheduling details.
Course descriptions – Spring Semester 2020
Health Management in Tourism, Bachelor (GMT)

Please be aware that Incoming Students can take courses from the lists of the other institutes.

Customer Relationship Management CRM

Course code: 160369208
Course type: Lecture /Discussion (ILV)
Semester: Bachelor, 2nd
ECTS Credits: 3 ECTS
Lecturer: Manuela Tooma

Learning outcome: Students will get a theoretical input, learn and experience theory behind complaint management - an important part of CRM in the hospitality industry. They will also be trained on how to use a technical CRM tool; Micros-Fidelio which is a leading IT solutions vendor and hosting provider for the hospitality industry. As retaining and hosting guests is one of the key issues of CRM, students will have the opportunity to be trained on how to taste wine & cheese in this course.

The goals of the course are to develop the student in:

- the basics of Customer Relationship Management
- using a hotel software (Fidelio)
- an understanding of complaint management
- an understanding of the importance of guest comments and how to deal with them
- creating an evaluation tool for visitor attractions

Course content: The so-called typical customer no longer exists and, thanks to the internet and the trend towards globalization, consumers have more choices than ever before. This forces companies to invent new methods of interacting with customers to reduce costs and gain market share. Companies started to focus on who is buying rather than how many products and services can be sold.

Customer Relationship Management (CRM) is a relatively new expression which has only been in use since the early 1990s. There are several definitions to describe the nature of CRM; however, what they have in common though is the understanding
that CRM is a strategic tool – used by organizations to manage their interactions with customers.

**Teaching methods:** Through lectures and exercises students will get a theoretical input, learn and experience theory behind complaint management - an important part of CRM in the hospitality industry. They will also be trained on how to use a technical CRM tool; Micros-Fidelio which is a leading IT solutions vendor and hosting provider for the hospitality industry. As retaining and hosting guests is one of the key issues of CRM, students will have the opportunity to be trained on how to taste wine & cheese in this course.

**Prerequisites:** None

**Assessment methods:** Written final exam: 60%, participation: 10%, mystery visit: 10%, Fidelio certification: 20%

**Language of instruction:** English

**Literature:**

English for Professionals in Health and Tourism II: Business English
ENG2

Course code: 160369213
Course type: Exercise (UE)
Semester: BA, 2nd
ECTS Credits: 1.5 ECTS
Lecturer: Caroline Werk

Learning outcome: Students will be able to give informed opinions in speaking and writing on health and tourism related topics, compose a Curriculum Vita (CV) and a cover letter according to the English language and culture conventions, adapt them to the specifications of the advertised position, and carry themselves in a professional manner in job interviews.

Course content: This course is meant to introduce students to the working world, improve their ability to compete in the job market, produce effective job applications and carry themselves in a professional manner during job interviews. The emphasis will be on removing barriers to language production, including ones created by inhibition and fear of making mistakes. Grammar will be reviewed in further detail and field specific vocabulary will be trained with the purpose of encouraging discussions on health and tourism related topics.

Teaching methods: Lectures, exercises and homework.
Prerequisites: English 1
Assessment methods: Fidelio
Language of instruction: English
English for Professionals in Health and Tourism V: The Tourism Sector ENG5

Course code: 160369609
Course type: Exercise (UE)
Semester: BA, 6th
ECTS Credits: 1.5 ECTS
Lecturer: Caroline Werk

Learning outcome: Students will improve their language awareness and performance with particular focus on business meetings and negotiations. They will learn how to structure, chair and facilitate meetings, and use the relevant language effectively. They will be able to write an agenda and minutes of a meeting. Students will improve professional English as the working language during negotiations in an international business environment, be better able to identify, prevent and manage conflicts, and improve their ability to participate in a discussion. Students will be able to give constructive feedback to colleagues and reflect in one’s individual performance.

Course content: Students will learn how to organize, chair and participate in business meetings, learn negotiation and conflict management basics.

Teaching methods: Lectures, exercises and homework.

Prerequisites: English 4

Assessment methods: Homework: 30%, participation: 20%, final exam: 50%

Language of instruction: English

Arabic II  ARA2

Course code: 160369214
Course type: Exercise (UE)
Semester: BA, 2nd
ECTS Credits: 2 ECTS
Lecturer: Saqri El Mostafa

Learning outcome: Skills in listening, reading, speaking and writing will be practiced. Students will learn to engage in simple conversations in order to make themselves understood in basic everyday situations. Cultural competence will also be fostered.

Course content: Already existing language skills will be expanded upon using communication-oriented language instruction based on a textbook and additional teaching materials (texts, recordings, country-specific materials, etc.).

Teaching methods: Lectures, exercises and homework.

Prerequisites: Arabic 1

Assessment methods: Homework: 20%, participation: 20%, midterm exam: 20%, final exam: 40%

Language of instruction: Arabic

Arabic V ARA5

Course code: 160369610  
Course type: Exercise (UE)  
Semester: BA, 6th  
ECTS Credits: 2 ECTS  
Lecturer: Saqri El Mostafa  
Learning outcome: Participants will be able to form simple sentences about their experiences and express their opinions on everyday topics.  
Course content: Existing language skills in listening, reading, speaking and writing will be expanded. The focus is on work, school and leisure, etc. Grammar and vocabulary will be reinforced and expanded upon.  
Teaching methods: Lectures, exercises and homework.  
Prerequisites: Arabic 4  
Assessment methods: Homework: 20%, participation: 20%, midterm exam: 20%, final exam: 40%  
Language of instruction: Arabic  
**Russian II RUS2**

**Course code:** 160369214  
**Course type:** Exercise (UE)  
**Semester:** BA, 2nd  
**ECTS Credits:** 2 ECTS  
**Lecturer:** Elisaweta Engelmaier  
**Learning outcome:** At the end of the course, students will be able to:  
- tell what country they come from  
- explain their language skills  
- give details about possessions  
- speaks about their preferences  
- tell what time of day it is and explain daily routines  
- describe things that have happened in the past  
- express wishes  
- understand simple sentences based on everyday expressions  

**Course content:** Already existing grammar and vocabulary skills will be reinforced. The course emphasizes oral expression and comprehension. Dialogues, role-playing and group work are used to develop these skills. Written homework from the workbook will promote writing skills.

**Teaching methods:** Lectures, exercises and homework.

**Prerequisites:** Russian 1

**Assessment methods:** Homework: 20%, participation: 20%, midterm exam: 30%, final exam: 30%

**Language of instruction:** Russian

Russian V RUS5

Course code: 160369610
Course type: Exercise (UE)
Semester: BA, 6th
ECTS Credits: 2 ECTS
Lecturer: Iryna Orlova
Learning outcome: Students will be able to deal with Russian-speaking tourists in their own language within a professional tourism environment in everyday situations.
Course content: The course prepares students to communicate with Russian tourists in common situations: greetings; check-in in a hotel; ordering in a restaurant; short dialogues.
Teaching methods: Lectures, exercises and homework.
Prerequisites: Russian 4
Assessment methods: Homework: 20%, participation: 30%, midterm exam: 20%, final exam: 30%
Language of instruction: Russian
Literature:
Chinese II CHI2

Course code: 160369214
Course type: Exercise (UE)
Semester: BA, 2nd
ECTS Credits: 2 ECTS
Lecturer: Xiaoli CUI

Learning outcome: Students will learn how to pronounce and write approximately 150 Chinese character per semester. They will learn how to converse in everyday situations, such as explaining where they live and what their preferences are.

Course content: Chinese course that also conveys a basic understanding of Chinese culture, behavior, as well as political and economic aspects.

Teaching methods: lectures, exercises and homework.

Prerequisites: Chinese 1

Assessment methods: Homework: 20%, participation: 20%, midterm exam: 20%, final exam: 30%

Language of instruction: Chinese

Chinese V CH15

Course code: 160369610
Course type: Exercise (UE)
Semester: BA, 6th
ECTS Credits: 2 ECTS
Lecturer: Xiaoli CUI
Learning outcome: Students will learn how to pronounce and write approximately 150 Chinese character per semester. They will learn how to converse in everyday situations, such as when visiting a doctor or renting a room.
Course content: Chinese course that also conveys a basic understanding of Chinese culture, behavior, as well as political and economic aspects.
Teaching methods: Lectures, exercises and homework.
Prerequisites: Chinese 4
Assessment methods: Homework: 20%, participation: 20%, midterm exam: 20%, final exam: 30%
Language of instruction: Chinese
Hospitality Management II: Trends and Challenges  

**Course code:** 160369603  
**Course type:** Lecture /Discussion (ILV)  
**Semester:** BA, 6th  
**ECTS Credits:** 2 ECTS  
**Lecturer:** Manuela Tooma  

**Learning outcome:** Upon completion, students should be able to demonstrate knowledge of how international hospitality management principles may be applied to real challenges facing industry managers. It is designed to introduce students to timely issues within the hospitality industry and is intended to move students into a managerial mind set with an emphasis on problem-solving skills.

The goals of the course are to develop the student in:

- to gain knowledge about the dynamics of national cultures, organizational cultures and touristic cultures  
- to define characteristics of hospitality services for a successful global marketing  
- awareness of ethical and social responsibility concepts in the hospitality industry  
- to understand the concept of international entrepreneurship  

**Course content:** The course “Hospitality Management II” is the academic study of the hospitality industry and builds on the knowledge students have acquired in the "Hospitality Management I" course. In times of rapid structural changes and highly competitive markets, this course focuses on gaining a comprehensive overview of the current trends and challenges of the international hospitality industry.

**Teaching methods:** PowerPoint lectures and student presentations. An excursion to the ITB in Berlin will give students the opportunity to meet market players of the leading platform of the international travel industry. They will have the chance to familiarize themselves with various job opportunities in the hospitality industry. In addition, they will attend selected panel discussions and professional lectures held by hospitality industry experts to gain insights of the industry’s current trends and challenges. They will then present what they have learned at the conference.

**Prerequisites:** Hospitality 1 is helpful, but not required.

**Assessment methods:** Written final exam: 60%, presentation: 20%, writing assignment: 20%

**Language of instruction:** English

**Literature:**

Sustainable Rural Tourism SRT

Course code: 160369614
Course type: Exercise (UE)
Semester: BA, 6th
ECTS Credits: 4 ECTS
Lecturer: Stefanie Schuster

Learning outcome: Upon successful completion of the course students should:

- understand the principles of sustainable rural tourism
- grasp the cultural significance of nature and the countryside, especially within an Austrian context, with special attention to the impact of nature on health
- be familiar with the social and political framework in which rural tourism development can take place, especially within an Austrian context
- understand the relationship between agricultural production and possibilities for rural tourism
- understand the planning process involved with rural tourism development
- be able to critically analyze and critique scholarly literature in the field of rural tourism management practices

Course content: The course prepares students to implement sustainable tourism projects in rural regions by examining:

- the principles upon which sustainable regional tourism can be developed
- the cultural significance of nature and landscape in connection with tourism
- trends in the demand for rural tourism products
- a cost-benefit evaluation of rural tourism development
- the social and political frameworks in which rural tourism development takes place
- the relationship between agricultural production and the development of rural tourism products
- the participative approach to the conception, planning and implementation of rural tourism development and sustainable tourism strategies

Teaching methods: PowerPoint lectures, an excursion and readings provide a basis for student project work and presentations

Prerequisites: A background in tourism is helpful, but not required

Assessment methods: Project work: 50%, Presentation: 25%, Excursion report 25%

Language of instruction: English
Literature:

Addiction and Prevention ADP

Course code: 160369612
Course type: Exercise (UE)
Semester: BA, 6th
ECTS Credits: 4 ECTS
Lecturer: Marie-Isabel Placencia-Suarez

Learning outcome: On completion of the course students will

- know and understand the Public Health Action Cycle and how it is applied to health promotion and prevention in connection with addiction.
- understand issues related to the different stages of the Public Health Action Cycle and related to planning, implementing and evaluating health promotion and prevention projects in connection with addiction.
- be able to apply their knowledge on planning, implementing and evaluating in health promotion and prevention to a case study.
- know and understand the different classifications of addictions and will be able to critically assess epidemiological information on addiction.
- know and understand the specific principles of addiction and addiction prevention in different populations and must integrate them within their group work.

Course content: The course provides a critical reflection on theoretical and practical foundations of effective and sustainable health promotion and prevention as they relate to addiction. Topics covered include:

- definitions and core concepts relating to addiction
- the etiology of addiction
- models of addiction
- target groups of addiction prevention
- approaches and policies regarding addiction prevention

Teaching methods: PowerPoint lectures, readings provide a basis for student presentations and project work in connection with a case study.

Prerequisites: A background in public health is helpful, but not required

Assessment methods: Project work: 50%, Presentation: 50%

Language of instruction: English

Literature:
Advanced Nutrition Skills  ANS

Course code: 160369613
Course type: Exercise (UE)
Semester: BA, 6th
ECTS Credits: 4 ECTS
Lecturer: Norbert Adelwöhrer

Learning outcome: On completion of the course students should be able to analyze new tourism trends in connection with food production. They should be able to identify and implement sustainable measures for tourism development based on food trends.

Course content: This course deals with: whole-food nutrition, production technologies, storage, distribution and the associated reduction of nutritional value; food processing, preserving, changes in biological value and availability; community catering and HACCP; economic aspects of the implementation of whole-food nutrition in tourist facilities; regional development policy projects (implementation of regional agriculture), Public health nutrition projects, as well as tourist projects, ecological and ethical projects connected to nutrition.

Teaching methods: PowerPoint lectures, readings provide a basis for student presentations and project work.

Prerequisites: A background in nutrition is helpful, but not required

Assessment methods: Project proposal: 20%, Midterm project presentation: 30%, Final project presentation: 50%

Language of instruction: English

Spa Operations

Course code: 100369215
Course type: Online course
Semester: Incomings only
ECTS Credits: 10 ECTS
Lecturer: James Miller

Learning outcome: On completing the course, students will:

- be able to explain how the global spa industry evolved
- understand the basics of the spa business, including the types of therapies and treatments typically offered in a spa and the equipment and personnel required to carry them out
- know the basics of spa hygiene and safety issues
- be able to develop staff and reception management systems within spas
- be able to develop a spa retailing plan
- understand the fundamentals of professionalism in a spa context

Course content: This course introduces students to spa operations from a spa manager's point of view. As spa operations is a very wide discipline and the spa industry varies from private to public supply, depending on the country in question, the main focus in this course is on basic knowledge about operations in a spa centre, as well as some historical knowledge of spa development and the global spa industry.

Teaching methods: Online reading materials and assignments.

Prerequisites: None.

Assessment methods: Moodle postings on readings: 30%, Research paper: 20%, Spa evaluation: 10%, Final online exam: 40%

Language of instruction: English

Literature: Scott & Harrison. SPA: The Official Guide to Spa Therapy
Crebin-Bailey, Harcup & Harrington, The SPA Book: The Official Guide to Spa Therapy
Connor, Godfrey & Milsom, Beauty Treatments
Smith & Puczko, Health and Wellness Tourism
Green, Salon Management
D'Angelo Spa Business Strategies
Beckman & Le Quesne, The Essential Guide to Holistic and Complementary Therapy
Austrian History and Culture

Course code: 10369118
Course type: Lecture/ Discussion
Semester: Incomings only
ECTS Credits: 2 ECTS
Lecturer: James Miller
Learning outcome: On completing the course, students will:

• have an understanding of the impact of geography on Austrian culture
• have a better understanding of the role of religion in Austrian society, both in the past and present
• comprehend the basic structures of Austrian politics and economics and how they have developed over the past several centuries
• have obtained a deeper understanding of Austrian high culture and its contributions to the world

Course content: This course is meant to introduce foreign students to some of the basic elements of Austrian society and culture, especially from an historical perspective. We will examine how Austrian culture has been formed over the centuries and what influences have come to bear to make Austria what it is today.

Teaching methods: Lecture, discussions, excursions
Prerequisites: None.
Assessment methods: Exam, reflection essay
Language of instruction: English

Literature:

**Culture in Health and Tourism**

**Course code:** 160369618  
**Course type:** Lecture/ Discussion  
**Semester:** Incomings only  
**ECTS Credits:** 5 ECTS  
**Lecturer:** James Miller and Elisabeth Fattinger  
**Learning outcome:** After taking the course students should:

- have an understanding of intercultural communication and its influence in health and tourism settings  
- have a better understanding of how social and economic structures frame individuals’ opportunities to pursue a healthy lifestyle  
- be more aware of the impact cultural circumstances have on health concepts  
- comprehend the role of infrastructure on opportunities for health promotion, also in the context of tourism  
- have obtained a deeper understanding of Austrian and other lifestyles and how these are related to health and tourism issues  

**Course content:** This course is meant to provide incoming students with insight into the impact of cultural, social, economic and political determinants on health and tourism.  

**Teaching methods:** Lecture, discussions, group presentations/workshops  
**Prerequisites:** None.  
**Assessment methods:** Presentation, reflection essay  
**Language of instruction:** English  
**Literature:**  
**Cultural and Urban Tourism**

**Course code:** 130370211  
**Course type:** Lecture/ Discussion  
**Semester:** Incomings only  
**ECTS Credits:** 2 ECTS  
**Lecturer:** Elena Paschinger and James Miller  
**Learning outcome:** Upon successful completion of the course students will:

- be aware of the complex ways in which cultural tourism is defined  
- be able to grasp the significance of cultural resources management issues within the field of tourism development  
- have an understanding of the demand-side of cultural tourism development  
- be familiar with management strategies associated with cultural heritage sites  
- be aware of the particular characteristics and problems of tourism in urban settings  
- understand the social and political framework in which cultural tourism takes place  
- understand the relationship between cultural offerings generally and cultural tourism  
- understand how concepts of sustainable tourism development can be applied to cultural tourism  
- understand and apply the workings of cultural tourism management to their future areas of work  
- grasp the dynamics of public-private partnerships  
- be able to apply the principles of sustainable tourism management to the particular challenges faced by cultural tourism  
- have become more savvy in the use of ICT tools for cultural tourism purposes  

**Course content:** This course examines practical and theoretical aspects of cultural and urban tourism. It takes an interdisciplinary approach, combining insights from the fields of history, art, anthropology, marketing and tourism studies.  

**Teaching methods:** Lecture, discussions, excursions  
**Prerequisites:** None.  
**Assessment methods:** Essays, seminar paper  
**Language of instruction:** English

Health Management and Public Health, Master (GTS)

Health and Nature Tourism NTOU

Course code: 180370208
Course type: Lecture /Discussion (ILV)
Semester: Master, 2nd
ECTS Credits: 3 ECTS
Lecturer: Harald Friedl
Learning outcome: By the end of the course, students will be able to

- understand the concept of nature tourism in the context of sustainability, especially as related to health promotion.
- develop sustainable nature tourism products
- implement marketing and regional development projects related to sustainable nature tourism
- understand concepts of nature and environmental protection, including the ideologies that drive them

Course content: In this course, students acquire an in-depth knowledge of nature as a complex resource worthy of protection for health promotion in the form of experience-based tourism products, while taking current trends into consideration. Using best practice examples, challenges and solutions in the area of sustainable nature tourism are analyzed from an interdisciplinary perspective with a special focus on the aspects of stakeholder needs, regional development, product design and marketing, and determinants for marketable health tourism products derived from these considerations.

Teaching methods: PowerPoint lectures, readings provide a basis for student presentations and project work.

Prerequisites: Knowledge of the basic principles of sustainable tourism development is helpful, but not required.

Assessment methods: Project work: 50%, Presentations: 50%

Language of instruction: English

Literature: None
Balanced Resource Management in Tourism BRMT

Course code: 180370209
Course type: Lecture /Discussion (ILV)
Semester: MA, 2nd
ECTS Credits: 2 ECTS
Lecturer: Christian Baumgartner

Learning outcome: Students who complete this course will have the ability to link segmented customer needs to form marketable and sustainable tourism products while taking into account the potential of tourism destinations and attractions.

Course content: In the context of the growing significance of tourism for regional and national economies, this course teaches students how to identify the diverse resources required for tourism both inside and outside of tourism companies and organizations. Interdisciplinary methods for measuring the economic, sociocultural, ecological and political effects of tourism are discussed and used as the basis for the development of strategies for sustainable resource management using modern management instruments in case studies.

Teaching methods: PowerPoint lectures, readings provide a basis for student presentations and project work.

Prerequisites: Knowledge of the basic principles of tourism product development is helpful, but not required.

Assessment methods: Project work: 50%, Presentations: 50%

Language of instruction: English

Literature: None
Health in all Policies HIAP

Course code: 180370210
Course type: Lecture /Discussion (ILV)
Semester: MA, 2nd
ECTS Credits: 3 ECTS
Lecturer: Bianca Fuchs-Neuhold

Learning outcome: Students completing this course will understand health as a fundamental human right and be able to plan and implement health promoting policies in partnership with various stakeholders and representatives of various policy areas.

Course content: This course teaches students the principles of the intersectoral collaboration of the HiAP approach to the health promoting management of complex systems. Students will acquire knowledge of the support of participation through intersectoral cooperation and the participation of the population. Using practical examples, negotiation strategies that enable the implementation of intersectoral cooperation at various levels will be practiced. Students will learn the application of various monitoring and evaluation instruments, including health impact assessment.

Teaching methods: PowerPoint lectures, readings provide a basis for student presentations and project work.

Prerequisites: A background in public health is helpful.

Assessment methods: Project work: 50%, Presentations: 50%

Language of instruction: English

Literature:

Evidence-based Health Promotion and Prevention EHPP

Course code: 180370211
Course type: Lecture /Discussion (ILV)
Semester: MA, 2nd
ECTS Credits: 3 ECTS
Lecturer: TBA
Learning outcome: Students who complete this course will be able to take a quantifiable evidence-based and theory-based approach engage in quality-assured planning of measures for maintaining and improving health and wellness.
Course content: This course uses practical applications to teach students current models of and systematic approaches to the theory-led and evidence-based planning of health promoting activities. Students learn to apply culturally adapted and participative methods aimed at empowerment in order to implement health promoting processes in different settings. This course uses practical examples to teach the significance of successful partnerships and networks, collaboration and mediation between different sectoral interests and systematic knowledge.
Teaching methods: PowerPoint lectures, readings provide a basis for student presentations and project work.
Prerequisites: A background in public health is helpful.
Assessment methods: Project work: 50%, Presentations: 50%

International Office (INT)

German as a Foreign Language

German courses (3–5 ECTS, depending on the offered courses)

Our secret recipe for successful German learning are small learning groups, individual support, motivated and qualified lecturers experienced in university-level teaching as well as effective teaching materials tailored to the particular requirements of university-level language learners.

Depending on the student numbers one or more German courses are offered during the semester.

We also offer German Intensive Courses as part of the Orientation Packages in September and February before the semester starts. For more information, please check our homepage www.fh-joanneum.at/orientation!

More information about the German courses at www.fh-joanneum.at/daf or via e-mail at international-bgb@fh-joanneum.at
Tandem learning (2 ECTS)

The Tandem+ Programme at FH JOANNEUM brings together people from different cultures and different languages. The aim of Tandem partnerships is to facilitate the exchange of languages, experiences and cultures. Although many students at FH JOANNEUM are aware that international (exchange) students attend their university, very few of them take the first step in getting (culturally) closer. We would like to change this, with your involvement!

Our Tandem+ Programme is designed to offer all students the opportunity to participate in a recognised intercultural programme (2 ECTS) in a relaxed and exciting atmosphere. The Tandem+ Certificate can be credited towards our Intercultural Skills Certificate (ISC).

In order to obtain the Tandem+ Certificate from FH JOANNEUM, you need to demonstrate that you have completed activities from the five Tandem+ Modules together with your Tandem partner. The five modules represent different skills in an intercultural and linguistic context and should be completed during one semester. Participation in certain sessions is mandatory as part of the Tandem+ Programme. The activities available can be freely selected in consultation with the Tandem partner. Completion of activities accounting for at least 50 points is required in order to obtain the Tandem+ Certificate.

You can find all information about the Tandem+ Programme and its modules online at www.fh-joanneum.at/tandem.
Dietetics & Nutrition, Bachelor (DIO)

English for Health Professionals 2 ENG2

Course code: 190460211
Course type: Integrated course
Semester: BA, 2nd
ECTS Credits: 1 ECTS
Lecturer: Caroline Werk
Learning outcome: Students

- have acquired and practiced appropriate strategies for efficient literature research and for reading summarizing and paraphrasing scientific texts
- can describe the human body and its functions
- can discuss nutrition trends and scientific articles

Course content: The course has two focal points: First, it is meant to complement and support contents taught in the course “Scientific Methodology” in the same semester, with the broad goal of enabling students to deal effectively with literature research and reading of scientific texts in the English language. The second focus of the course is on increasing students' proficiency in talking about topics related to the human body and its functions as well as nutritional trends.

Teaching methods: Interactive lecture; in-class exercises; readings and presentation; oral practice.
Prerequisites: English level B2
Assessment methods: 60 % written assignment; 20% vocabulary exam; 20% oral performance in class.
Language of instruction:English
Literature: Will be presented and made accessible at beginning of class.
Body Perception KWN2S

Course code: 190460213
Course type: Seminar
Semester: BA, 2nd
ECTS Credits: 1 ECTS
Lecturer: Sabine Bergner

Learning outcome: Students:
- are aware of the interconnections between sociocultural factors and psychological needs on the one hand and body perception on the other hand
- have reflected on their own body images
- are able to put the body images of their clients into perspective

Course content: The class explores how individuals develop and maintain perceptions of their own bodies, and looks at the resulting psychological and behavior issues that may affect health behaviors as well as compliance in counseling situations.

Teaching methods: Interactive lecture; mini-project; applied practical activities and reflection.

Prerequisites: English level B2.

Assessment methods: 40% written exam; 30% participation; 30% short reflective reports

Language of instruction: English

Literature: Will be presented and made accessible at beginning of class.
Diet, society, culture and cross-cultural competence  DSC4I

Course code: 140460409
Course type: Integrated course
Semester: BA, 4th
ECTS Credits: 3 ECTS
Lecturer: Elisabeth Fattinger
Learning outcome: Students
- have trained their self-awareness as “cultural beings”
- are able to place approaches, attitudes and practices related to diet, health and health care into sociocultural and international perspectives

Course content: The focus of the class is on the connections between nutrition, health, culture and society. Two rather distinct aspects of how culture influences the work fields of health professionals are discussed:
- How do culture and socio-cultural aspects shape and affect our health and our health-related behaviors, including our diet?
- How does culture affect communication behavior, values, and health beliefs? What does this mean for encounters with clients from different cultural backgrounds?

Teaching methods: Interactive lectures; self-study and group work; preparing presentations for class; reading, web-based activities and worksheets; interactive oral activities and discussions in class.

Prerequisites: English level B2
Assessment methods: Contributions to discussions and participation 30%; group assignment (presentation / mini-workshop) 50%; short oral or written reflection of class 20%.

Language of instruction: English

Other readings presented and made accessible at beginning of class.
Sports Nutrition SPOE3V

Course code: 140460309
Course type: Integrated course
Semester: BA, 3rd
ECTS Credits: 1 ECTS
Lecturer: Manuela Konrad

Learning outcome: Students are familiar with the special nutritional needs arising from different kinds and intensity of physical activity. They can give appropriate nutritional advice to both athletes and exercising individuals.

Course content: The Sports Nutrition lecture focuses on recommendations for athletes in strength and endurance sports and food intake before/during and after exercise. The course content also covers hydration, oxidative stress and nutritional strategies for muscle build-up.

Teaching methods: Interactive lecture, discussions.
Prerequisites: English level B2.
Assessment methods: Written exam
Language of instruction: English
Literature: Will be presented and made accessible at beginning of class
Nutrition and Ecology  EOE4I

Course code:  140460404
Course type:  Integrated course
Semester:    BA, 4th
ECTS Credits:  1 ECTS
Lecturer:    Daniela Grach
Learning outcome: Students:
  • have critically examined nutritional practices with a view to sustainability in its wider meaning
  • are able to integrate aspects of sustainable nutrition and ethics into their practical work as nutrition counselors and educators

Course content: The course introduces students to some of the basic dimensions of nutritional ecology: The four dimensions of sustainability (Environment, health, society, economy); models of sustainable nutrition in theory and practice; world food situation; animal ethics.

Teaching methods: Lecture, discussions, group project.
Prerequisites: English level B2
Assessment methods: 30% participation in class; 70% group assignment (plan for integrating sustainability in dietetic practice situation).
Language of instruction: English

Literature: English-language literature will be presented and made accessible at beginning of class. Others: Most recent versions of
Public Health PH6I

Course code: 140460605
Course type: Integrated course
Semester: BA, 6th
ECTS Credits: 2 ECTS
Lecturer: Daniela Grach; Christina Lampl
Learning outcome: Students:
- can describe the tasks and methods of Public Health and health promotion.
- Can define criteria of good practice in health promotion
- Have planned nutrition-related health promotion measures for specific settings and target groups according to criteria studied in the class
- Are able to integrate approaches such as mindful eating into (workplace) health promotion

Course content: The course introduces students to the basic concepts, methods and approaches of Public Health, with a special focus on nutrition in health promotion in general as well as in workplace health promotion. Special attention is also paid to mindful eating and nutrition & night - & shift work. Students apply the course contents by planning a nutrition-related health promotion measure.

Teaching methods: Lecture; excursion; group work; project slam; self-study.
Prerequisites: English level B2
Assessment methods: Writing a public health project application 80%; self-study written reports on specific questions 20%.

Language of instruction: English

Career Exploration: Professional Internship 1 (at the Health Perception Lab, HPL) \textsuperscript{PR1}

Course code: 190460218
Course type: Internship
Duration: 10-11 days
ECTS Credits: 3.5 ECTS
Supervisors: Elisabeth Pail; Wolfgang Gunzer

The Health Perception Lab (HPL) is a laboratory for health-relevant sensory research. The primary focus is on examining beneficial foodstuffs and improving meal plans or food products by means of hedonic sensory analysis using standardized sensory cabins as well as modern digital technology, including 3D face reading and eye tracking. Tasks of interns depend on research being conducted at time of placement.

NOTE: The Health Perception Lab is located on the Graz campus, not in Bad Gleichenberg. As a result, an internship there will require student to arrange for accommodation in Graz and will have to work around the schedules of their other classes in Bad Gleichenberg, as commuting between Graz and Bad Gleichenberg is not practical.

For more information:
https://fh-joanneum.at/en/labor/health-perception-lab/
Professional Internship 2 PR2

Course code: 140460412
Course type: Internship
Duration: 3 weeks
ECTS Credits: 5.5 ECTS
Supervisors: Elisabeth Pail

NOTE: Requirements: Only for students of nutrition and dietetics. English B2. Basic knowledge of German (A1). Internship slots are limited and cannot be guaranteed.

Traineeships depend on availability in the specific semester but are possible at:

- **Kurzentrum der Therme Bad Radkersburg**
  The Kurzentrum is a rehabilitation center with focus on healthy patients recovering after surgery, and patients suffering from diabetes, hyperlipidemia, hyperuricemia and kidney diseases.

- **Klinikum Bad Gleichenberg**
  The Klinikum is a rehabilitation center for pulmonary and metabolic diseases, which offers nutrition therapy as a part of behaviour change.

- **Life Medicine Resort Bad Gleichenberg**
  The spa house in the Life Medicine Resort offers therapies focusing on:
  - Pulmonary diseases
  - Skin diseases and allergies
  - Impairments of the musculoskeletal system
  - Rheumatic diseases
  - Health treatments for children
Occupational Therapy, Bachelor (ERG)

*Be aware the semester starts at the 10th of February 2020 for occupational therapy students! Make sure to arrive on time to take this course!

Course schedule and description not yet available

TBA
How to get to Bad Gleichenberg?

Coming from Vienna

**By train**
Vienna Aspang – Feldbach* or
Vienna – Graz – Feldbach*
*Change in Feldbach or Bad Gleichenberg (pick up by arrangement).

**By car**
Via A2 – exit Ilz via Riegersburg and Feldbach to Bad Gleichenberg or exit Gleisdorf-Süd to Feldbach.

Coming from Germany or Graz

**By train**
Innsbruck - Graz - Feldbach* or
Salzburg - Graz - Feldbach*
*Change in Feldbach or Bad Gleichenberg (pick up by arrangement).

**By car**
Via Ag in the direction of Graz, further on A2 in direction of Vienna, exit at Gleisdorf-Süd for Feldbach and Bad Gleichenberg or by car train Feldkirch – Graz and Innsbruck - Graz.
