# MONTENEGRO IN A NUTSHELL

Montenegro declared itself as the first ecological state in the world thirty years ago aiming to protect its precious nature – mountainous hinterland with deep canyons, wild rivers, lakes and forests. As such, it attracts a growing number of visitors every year and is repeatedly recognised by the world's leading travel guides (e.g. Lonely Planet) as the must-see destination.

It is a country where you will be blown away by the natural beauty and the clarity of the sea. Whether it's fresh mountain air you crave or long sandy beaches, there are plenty of places to choose from in Montenegro. With only one-hour long drive from the country's capital, you can have a taste of the wildest mountains, the charm of coastline or authentic fishing villages.

The growing hospitality scene was recognized by some of the world's leading resorts such as One and Only that opened just before the summer season 2021.

Don't be surprised if you bump into one of the A-list world celebrities – Bill Gates, Victoria and David Beckham, Beyonce, Novak Djokovic, Michael Jordan, Maria Sharapova, Tom Cruise, Tina Turner, Sylvester Stalone – to name just a few of high-profiles who have chosen Montenegro as their holiday destination.
